

# JARVIS - Open Call #1 Matchmaking Event

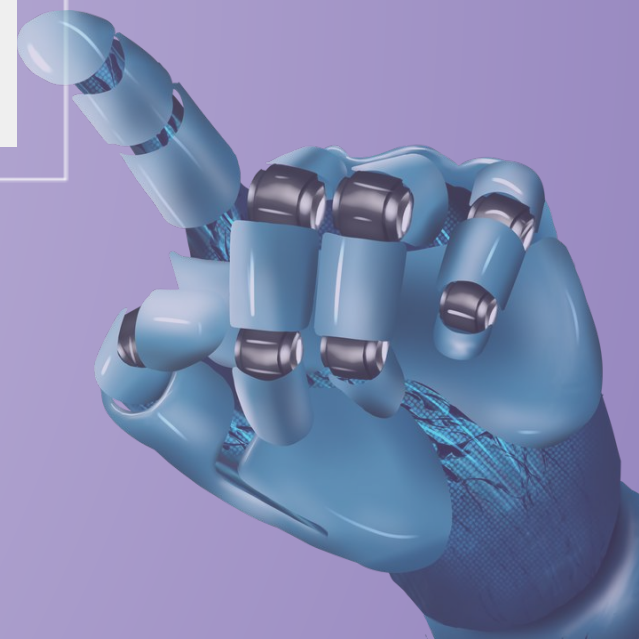

15 April 2025, 14:00 – 15:00 CET

Introduction

**Next-Tech**  
Association

Co-funded by  
the European Union

Co-funded by the European Commission under Grant Agreement n° 101135708. The dissemination of results herein reflects only the author's view, and the European Commission is not responsible for any use that may be made of the information it contains

# Entity Profile & Expertise

## Next-Tech Association

- **Mission:** Empower communities and organizations by providing **cutting-edge technology solutions** and **digital expertise**
- Focus areas: **AI, cybersecurity, digital transformation, and innovation**
- Our work drives **inclusive growth** and **sustainable tech adoption** across various sectors
- Key activities:
  - Offering **strategic guidance** on **technology integration** and **digital transformation**
  - Providing **AI solutions** for businesses and organizations seeking to enhance efficiency and innovation
  - **Cybersecurity consulting** to ensure safe, resilient systems in the face of evolving digital threats
  - **Collaborative partnerships** with **industry leaders** and **educational institutions** to foster tech-driven innovation

# Challenge to Address

**Challenge:** Drive digital transformation and enable the responsible adoption of **AI** and **cybersecurity** solutions across industries

- Focus on developing **AI-powered tools** that enhance operational efficiency and support **business innovation**
- Contribute to **digital resilience** by providing **cybersecurity expertise** for safeguarding infrastructure
- Foster **cross-sector collaborations** to create scalable, sustainable **tech solutions** that are accessible and impactful across different industries
- Leverage our expertise in **AI**, **cybersecurity**, and **digital strategy** to help organizations embrace the opportunities presented by **emerging technologies**

# Needs & Collaboration

## How we can contribute:

- Offer **AI expertise** to develop innovative solutions across multiple sectors (e.g., **AI-driven tools, automation, smart technologies**)
- Provide **cybersecurity solutions** to ensure **secure and resilient digital infrastructures**
- Collaborate on **digital transformation** projects, enabling organizations to integrate and adopt cutting-edge technologies
- Contribute to **research and policy advocacy** for **ethical technology use** and **sustainable digital practices**
- Leverage our **network** with **tech companies, industry partners**, and **research institutions** to drive innovation
- Engage in **cross-sector collaborations**, aligning with initiatives that promote **inclusive and impactful technology adoption**

**Goal:** Facilitate **digital transformation**, drive **AI innovation**, and support **sustainable tech integration** across various industries, empowering communities, businesses, and organizations.

## Who we are looking for:

- end user in the field of aviation
