The EU-funded project JARVIS will soon launch its second Open Call (OC2) to promote innovation in technology and automation. It allocates funds to support third-party ventures, particularly by involving SMEs in testing and validating JARVIS' solutions through pilots. A total of 21 applications will be funded across two main call types: External Pilot and Co-development, engaging SMEs, researchers, developers, and multidisciplinary participants.

TOTAL FUNDING FOR OPEN CALL 2

1 450 000 EUROS

130k for 5 external pilots

100k for 8 co-developed products

THE ULTIMATE GOAL?

Stimulate the engagement of SMEs in **testing** and **validating** innovative solutions in the JARVIS pilots

Extend the adoption of the developed tools, systems and solutions by **external industry**/SMEs representing different use-cases/sectors where HRI is a necessity/sectors where HRI is a necessity

Support the development of JARVIS solutions through the provision of feedback and lessons learnt

FOR WHOM? →

TWO TYPE OF OPEN CALLS WILL BE LAUNCHED AT THE SAME TIME:

Open Call for co-developers:

Funding up to 100k euro per project for 9 months work.
Target: technology developers/integrators. Consortium up to 2 partners allowed.

Open Call for external pilots:

Funding up to 130k euro per project for 10 month work.
Target: technology adopters + technology developers/integrator. Consortium up to 3 partners allowed.

WHEN? →

This Open Call will be launched in the 2nd half of 2026

STAY TUNED !
